

LMV12Wxx

AC/DC CONVERTER 12W

DESCRIPTION

Low cost driver for one or more DC-fans up to a total power consumption of 12W max. from AC-main supply. Allows using temperature control or/and alarm electronics.

SECURITY

Protection class II (fully insulated), shuts off automatically at overload and short circuit. For restart please switch off-on. Connectors fully covered.

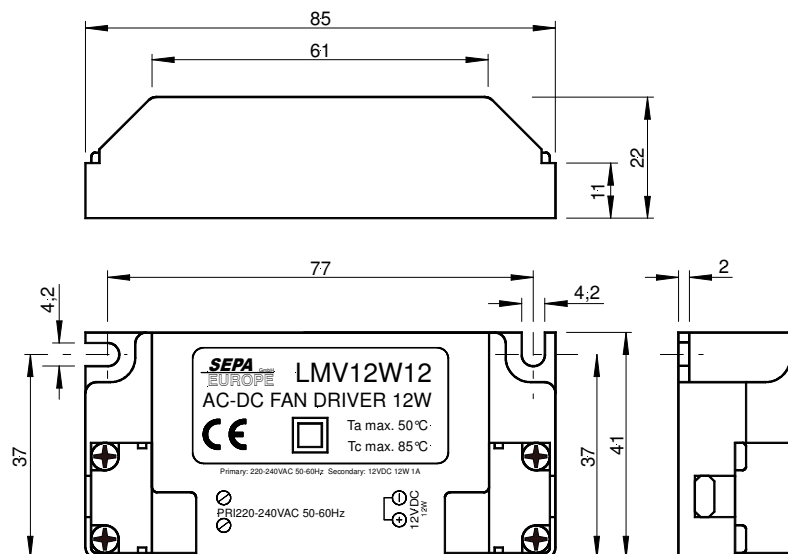

SIMPLE MOUNTING

Mounting is simply by using two screws on a flat surface. Very low space requirement. High efficiency. Power lead / Connector on request.

PERFORMANCE

| TYP | Input-voltage [VAC] | Output-voltage [VDC] | Output-current [A] | Efficiency [%] | Max. Case-Temperature [°C] | Standard packing quantity [Stk.] | Order no. |
|----------|---------------------|----------------------|--------------------|----------------|----------------------------|----------------------------------|-----------|
| LMV12W12 | 100...264 | 12 ±3% | 1.0 | >85 | -10...+70 | 10-40-80 | 908522120 |
| LMV12W24 | 100...264 | 24 ±3% | 0.5 | >85 | -10...+70 | 10-40-80 | 908523120 |
